

# REDUCE YOUR LEGIONNAIRES' DISEASE RISK AND EXPOSURE WITH OUR LEGIOLERT<sup>®</sup> TEST!

## PROTECT YOUR COMMUNITY AND HEALTH

Water systems that are not properly maintained and monitored cause Legionnaires' Disease. The CDC suggests 90% Legionnaires' outbreaks could have been prevented with better water management practices.

### BENEFITS OF LEGIOLERT<sup>®</sup> TEST WITH PDC LABORATORIES:

**Accuracy:** 99% accurate, no retesting

**Speed:** results in 7 days

**Consistency:** detects pathogens when traditional methods do not

**Relevance:** detects pathogens in shower heads, spray faucets, hot water heaters, hot tub whirl pools, and decorative fountains

### WHO IS AT AN INCREASED RISK?

- Adults 50+ years
- Smokers: current or former
- Individuals with a weakened immune system
- Individuals with chronic disease
